---	----------	------------------------------

1. Open the Microsoft Store app on your computer (you can find it in the Start menu or in the Windows search bar: (

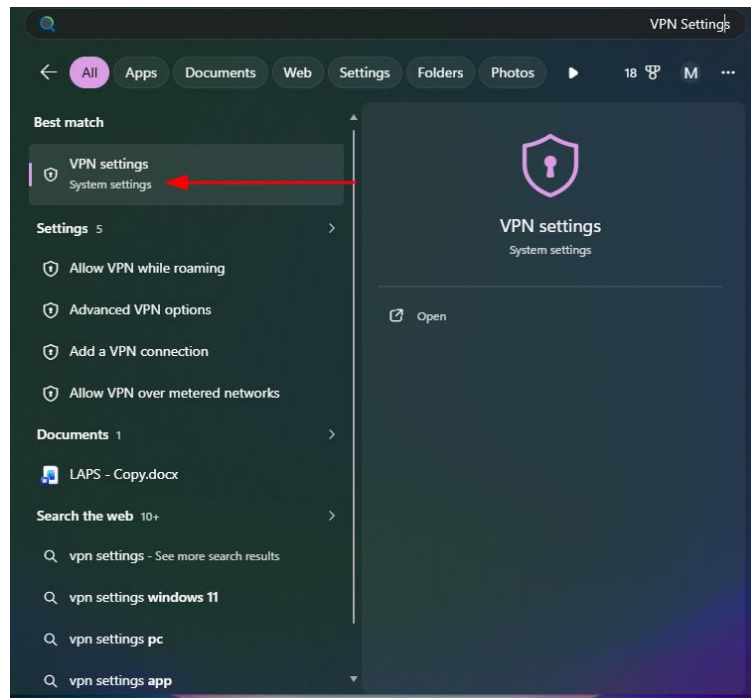

2. In the Microsoft Store search bar, type "Check Point Capsule VPN". Click the app that appears in the results, then click the "Get" (Install) button to install it.

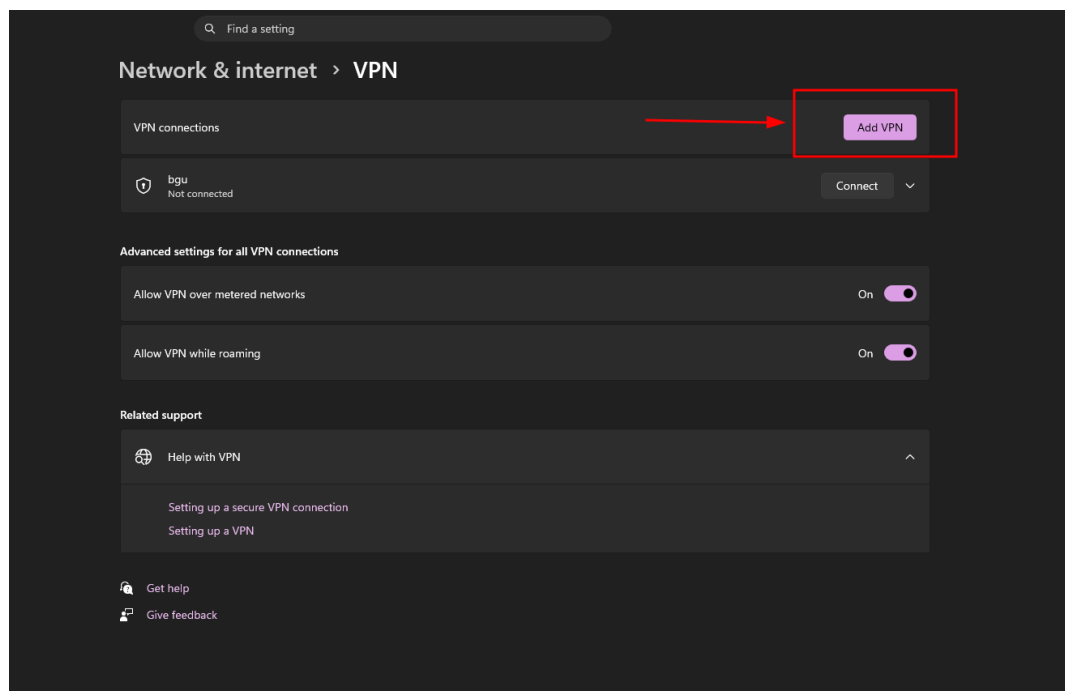

3. In the taskbar at the bottom of the screen, click the search icon and type "VPN Settings". Select the result that appears to open the Windows VPN settings.

To connect to the VPN in the future, return to this screen and proceed to step 6.

4. In the VPN settings window that opens, click the "Add VPN" button to configure a new connection.

5. In the window that opens, scroll to the first field named "VPN Provider" and select "Check Point Capsule VPN" from the drop-down list. Fill in the remaining fields exactly as shown in the attached image. When done, click "Save" to confirm the settings.

Add a VPN connection
